

CITIES COALITION FOR DIGITAL RIGHTS

PARTICIPATION, PRIVACY, DATA PROTECTION AND SECURITY

The most advanced cities in digital transformation come together to protect citizens' digital rights. Milan becomes a member of the Coalition for Digital Rights, an initiative launched last year by the municipalities of Barcelona, Amsterdam and New York to promote and protect the digital rights of citizens.

The goal is to develop policies, tools and resources according to the UN Universal Declaration of Human Rights and the Internet Principles developed by the UN Internet Governance Forum.

The meeting aims to compare multiple perspectives on citizens' digital rights.

INVITATION

Thursday, 14 March 2019
