

# North American Legal AI Summit

From ambition to adoption: Navigating the realities of AI

June 5, 2025  
9 a.m. – 4 p.m. ET

9 – 9:30 a.m. Registration and breakfast	
9:30 – 10 a.m.	<b>Keynote address</b>
10 – 10: 45 a.m.	<b>Setting the rules: AI standardization</b> This panel will explore the evolving landscape of AI governance, focusing on North American efforts to mitigate risks and establish common principles. While regulation varies across jurisdictions, shared priorities are beginning to emerge.
10:45 – 11:30 a.m.	<b>Contracting and AI: New risks, New terms</b> As AI becomes embedded in core business functions, traditional contracts are being put to the test. This panel will explore how organizations can update existing agreements and draft new ones that effectively address emerging risks—including liability, indemnification, data usage, confidentiality, and the ownership of AI-generated output.
11:30 a.m. – 12:15 p.m.	<b>Privacy by design: Building trust in AI</b> AI systems raise serious privacy questions. This session focuses on embedding privacy from the start — with tools like DPIAs, transparency, and strong data governance.
12:15 – 12:45 p.m. Lunch	
12:45 – 1:30 p.m.	<b>Navigating intellectual property in the age of AI: Ownership and innovation</b> This session will explore the complex challenges surrounding intellectual property laws as they apply to AI and AI-generated works. We'll consider issues relating to ownership of the output generated by AI systems, explore the challenges of protection copyright as a result of use of AI, and discuss the evolving landscape of AI innovation with its corresponding patent strategies.
1:30 – 2:15 p.m.	<b>Employee’s use of AI in the workplace: Rights, bias, and automation</b> AI is changing hiring, evaluation, and surveillance. This panel looks at the legal and human rights implications of algorithmic management.
2:15 – 2:30 p.m. Break	
2:30 – 3:15 p.m.	<b>M&amp;A meets AI: Current state and emerging trends</b> AI is reshaping how deals are evaluated, structured, and executed. This panel will cover emerging trends in valuation, due diligence, and strategy.
3:15 – 4 p.m.	<b>Data centers + energy: Housing AI at scale</b> This panel explores how AI will reshape the data centre industry and the impact it is having and will continue to have on energy, planning, and regulation.
