

Dentons signs partnership agreement with WorldWideGost Russian certification agency

October 28, 2015

Moscow —Dentons has signed a partnership agreement with the WorldWideGost certification agency. Meeting the requirements of Eurasian Economic Union technical regulation is one of the key issues that companies currently have to resolve at the time of import and customs clearance of goods. In practice companies have justified doubts as to whether it is necessary to obtain one or another permitting document. The partnership with WorldWideGost will allow Dentons to provide clients with timely and practical advice to meet technical regulation requirements and guarantee that the needed permitting documents are obtained.

Earlier Dentons announced that it had concluded an agreement with the Customs Rus customs representative. Detailed information is available [here](#).
