

Dentons announces US COVID-19 50-State Tracker

March 31, 2020

Dentons, the world's largest law firm and the only global law firm operating in most of the countries where there is a significant outbreak of COVID-19, including in the US, today adds a COVID-19 50-State Tracker to a suite of client resources available publicly.

Dentons' COVID-19 50-State Tracker provides an overview of key information for each US state and the District of Columbia, including reviews of state and local governmental orders, directives and financial assistance, official links, public restrictions, health and business directives, school closures and updates on courts and legislative sessions. Official links are provided where possible throughout the Index to ensure that the latest guidance and orders are available.

In addition to official links, the COVID-19 50-State Tracker will be updated regularly. Slated for future additions are information on remote online notarizations and eNotarization, mortgage and rent payment relief and telemedicine/telehealth. Those interested in regular COVID-19 updates can opt-in to an e-mail list.

Dentons, which has been a leader in advising and collaborating with the global legal and business communities, pledges to continue to share insights and best practices with clients and contacts around the world, and proactively support the business community as it navigates business challenges created by the COVID-19 pandemic. Dentons has developed multiple resources throughout Q1 2020 and these are available to the public and global business community at large through its COVID-19 hub on the Firm's website.

EDITOR'S NOTE: This is an addition to a series of ongoing media alerts sharing Dentons' COVID-19 offerings as they continue to evolve and the tools are updated and augmented regularly along with data points and industry trends.

Opt-in COVID-19 mailing list here so you will receive these regular updates.
