

# Dentons once again recognized as top firm in Ottawa for Technology law according to *Lexpert*

January 19, 2021

Dentons is honoured to be once again recognized as the leading firm in Ottawa for Technology law according to *Lexpert*. The legal publication issues a set of “bull’s-eye charts” annually to highlight legal expertise in a selection of market segments and, for a second year in a row, Dentons is featured at the center of the Ottawa Technology chart.

The bull’s-eye charts, which are based on annual peer surveys in support of the 2021 edition of *The Canadian Legal Lexpert® Directory* and its sister publication, *The 2021 Lexpert®/American Lawyer Guide to the Leading 500 Lawyers in Canada*, identify top-tier counsel in various practice areas of the Canadian legal profession. Law firm positions in the bull’s-eye charts depend on the cumulative recognition their individual lawyers have achieved in these surveys.

Dentons was also recognized as leading law firm in Canada by *Chambers Fintech* for a second year in a row and was named Top 1 firm for number of venture capital deals in 2019 and for the first nine months of 2020 according to CPE Analytics.

“We couldn’t be more pleased with all these great recognitions, which really are a testament to the strength of our Technology team across the country,” said David Little, Chair of the Dentons Venture Technology and Emerging Growth Companies group in Canada. “We have spent quite some time building a strong and dedicated group of trusted business advisors with a unique proficiency in Fintech, Insuretech, PropTech, artificial intelligence, blockchain, cryptocurrencies, virtual reality and Software as a Service, who provide innovative legal solutions to not only emerging companies, but also leading investors, and established domestic and multi-national businesses in North America.”
