Overview

Bogdan Piskorskiy is an associate in Dentons' Nur-Sultan office. Bogdan focuses on real estate and construction, infrastructure and PPP projects, general corporate and commercial issues. He has extensive experience in advising various major companies on FIDIC and EPC contracts and other related transactions.

Bogdan's experience includes providing advice to the organizer of Astana EXPO-2017 on a wide range of matters. He acted as one of the main co-drafters of amendments to natural monopolies legislation in 2018 under an EBRD project. He has advised the EBRD on regulatory and other matters and assisted with lending for municipal projects and projects in the corporate sector.

Prior to joining our firm, Bogdan held various senior legal positions in management companies, companies operating in the chemical and petrochemical sector, as well as law firms.

Bogdan graduated from Eurasian National University, Astana, Kazakhstan (Degree in International Law, 2003).

He speaks Russian and English.

Experience

- **Major local goldmining company:** Assisting with drafting and negotiating of two EPC contracts (based on FIDIC "Silver Book") with a local contractor associated with the construction of two gold-refining plants.
- **TAV Havalimanlari Holding A.S:** Advising on local land-related and other issues and reviewing the draft EPC contract (bespoke form) and other related agreements in respect of the construction of a new passenger terminal at Almaty International Airport.
- **Foreign consulate in Almaty:** Advising the client on satisfaction of various conditions under the preliminary lease agreement, including dealing with the contractor and other stakeholders, drafting various security agreements.
- **Major local industrial contractor:** Reviewing the draft EPC contract (based on FIDIC "Silver book") regarding the construction of gold-refinery facilities in Aqmola region.

- **Major local mining holding:** Assisting with drafting and negotiating the EPC contract with a local affiliate of a major Chinese construction contractor in relation to a unique technically complex project on the construction of a shaft and infrastructure in East Kazakhstan oblast.
- **Major UK design developer:** Advising on the regulatory framework covering licensing matters and the most suitable model of participation in major designing and construction projects originating from international oil and gas mining operators and consortia in Atyrau oblast.
- **Major Turkish construction investor:** Assisting with the development of the bidding documentation and a FIDIC 'Yellow book' contract for the design and construction of a soda ash plant in Zhambyl oblast.
- **The organizer of Astana EXPO-2017:** Advising on a wide range of legal, regulatory and other matters, drafting and negotiating multiple design and construction contracts.
- **Major US oil/gas services provider:** Advising on various transactions related to the construction of a large production base and infrastructure in Aktau city, drafting and assisting with the negotiation of a project management consultancy agreement.
- **US corporation (US government contractor):** Advising on general contractor's rehabilitation matters regarding the construction of a facility in Almaty.
