## Overview

Kitty is a partner in Dentons' Capital Markets practice. She advises trustees, security agents, custodians, cash managers, collateral administrators, account banks and other agency providers on a wide range of capital markets products, including listed Eurobonds, private placements, EMTN and CP programs, equity-linked issues, regulatory capital and hybrid capital issues, high-yield bonds, loan participation notes, covered bonds and project bonds, Islamic finance and structured products, such as RMBS, CMBS, CLOs and repackaging transactions. She also advises security agents and facility agents on secured and unsecured bank financings.

Kitty regularly advises trustees and other agency providers on a wide range of "post-issue" matters, such as liability management transactions, potential and actual defaults, consent solicitations, exercises of trustee discretion and restructurings.
