

Overview

Financial institutions, banks, companies and organizations of every size and focus trust Dentons' US Financial Institutions team. With highly skilled teams comprising lawyers from our leading Banking and Finance, Corporate and Capital Markets practices, among others, we offer you a suite of sophisticated, innovative, proactive and sector-specific legal services tailored to effectively protect and defend your interests and advance your business objectives.

Draw upon our lawyers' financial acumen and decades of collective experience to better understand your opportunities and risks. We are strategically positioned with offices across the US to provide comprehensive legal and regulatory guidance to US-based commercial and investment banks, insurance companies, funds, private equity firms, credit payment providers, consumer and mortgage finance companies, among other market participants, as well as the US operations of international organizations. Whether advising on transactions, compliance, financings, asset acquisitions and sales, distressed situations, fund formation, regulatory or government investigations, we partner with you to develop and deliver user-friendly solutions that advance your interests.

With many of our clients doing business throughout the world, we offer a powerful and efficient global platform that covers Canada, the UK and Europe, the Middle East, Asia and Africa. Turn to Dentons' US Financial Institutions team for the advice and guidance you need. We provide the effective solutions you need across the financial services sector, including:
