

Excess and Surplus Lines Insurance Compliance

Overview

For US and non-US insurers, conducting business within the US is multifaceted. You need a global partner who understands the industry, the complexities, the varying levels of regulation associated with different methods of doing business, and the legal and practical requirements for operating in compliance with complex and often inconsistent sets of laws.

We can help you cover risks in any US state regardless of your geographic location, and without the necessity of obtaining a license. From drafting coverage documentation to ensuring that no prohibited in-state activity occurs, we use our widespread experience to help you navigate the evolving surplus lines regulatory environment, including the provisions set forth in the Nonadmitted and Reinsurance Reform Act within the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Dentons helps you expand the nature, scope, volume, and geography of risks you underwrite in the manner that most efficiently aligns with your business strategy.
