

## Overview

Our experienced team of legal practitioners, who are recognized leaders in their respective fields, advises you on all areas of the Life Sciences sector. Dentons' extensive global presence guarantees you an effective handling of all kinds of cross-border matters.

## Key service areas

We support you in all legal matters relating to:

- M&A transactions, PE transactions
- License agreements, agreements for R&D cooperations and transfer of technologies
- Structuring and financing of emerging companies
- Acquisition, use and enforcement of intellectual property rights and know-how
- Regulatory issues (clinical trials, marketing authorizations, certifications, production, distribution)
- Product-related issues (biosimilars, doublets, companion diagnostics, orphan drugs)
- Classification issues and “product-switches”
- Product marketing (law on health care advertising)
- Employee inventions
- Antitrust matters
- Representation in court proceedings, arbitration procedures and mediation

Among our clients are international and domestic companies in the pharmaceutical, diagnostic and medical devices industry as well as in the field of biotechnology.
