

## Overview

In recent years, the manufacturing industry in Europe has experienced a transformation as a result of the changing global economic situation, new and evolving technologies, and constant pressure to improve performance and expand to new markets at home and abroad.

Our team of dedicated professionals helps you anticipate and understand emerging trends, such as reshoring, smart and green manufacturing, and navigate through a myriad of issues. Whether you are managing supply chains, regulatory compliance, business and tax incentives or dealing with construction permits as well as employment and environmental matters, we will work with you to effectively achieve optimal results.

With 18 offices across Europe and a strong presence in some of the world's largest investment arenas, including Central and Eastern Europe, India and China, we are uniquely positioned to bridge cultural differences and meet your business' expectations regardless of your industry.
