

Mining Litigation and Dispute Resolution

Overview

The mining industry is highly globalized. So, too, is your Dentons mining litigation team.

Whether you are embroiled in arbitration or litigation over a royalty, participation right or right of first refusal, proxy contest or other mining- or resources-related dispute, Dentons is there to help you achieve your objectives.

Our clients are engaged in the exploration and development of surface and underground deposits of various resources, including: gold, silver, copper, uranium, diamonds and other metals and minerals.

Take advantage of our core strength in providing strategic advice to companies, their boards, management and special committees, and their professional advisors.

We work closely with our securities and corporate mining lawyers to negotiate deals, execute plans of arrangement or assist in connection with hostile tender offers or takeover bids. If it becomes necessary to protect your rights before regulatory tribunals or trial or appellate courts, we are second to none.
