

## Overview

We have a proven track record of success on complex private equity transactions. As a fund manager, institutional investor, venture capitalist, angel investor or entrepreneur, you need access to multidisciplinary capabilities to address issues such as fund formation, buyouts, mezzanine financing, dealing with investee companies, liquidity events and tax structuring.

Dentons' Private Equity team in Canada offers seasoned counsel to guide you through the complexities of any deal. We tailor our sophisticated corporate finance, business advisory, tax and other legal services to meet your unique needs. We draw on our cross-border experience, industry knowledge and valuable connections in the world of private finance.

We advise leading Canadian, US and global players in private equity fund formation, "funds of funds" and direct investments, and all forms of related debt financing. With a presence in Canada's six key business centers, our team draws on Dentons' significant capabilities in the areas of tax, securities and corporate finance, mergers and acquisitions, technology transactions, cross-border transactions, intellectual property and financial services. In recent years, we have acted on leading and innovative transactions in the private equity and venture capital industry spaces.
