

Overview

Your industry is facing an ever-increasing demand for global services, sector focus and flexible, innovative solutions. You need to provide this, while complying with increased regulatory controls, facing increased global risks and, at the same time, needing to provide outstanding client service.

We can help you navigate this complex path, with sector knowledge in tandem with experience in a full range of commercial legal services, including:

- Corporate law and governance
- Litigation
- Insolvency
- Finance
- Real estate
- Technology
- Employment
- Intellectual property
- Tax

As a result of our integrated approach to our advice and counsel, you can seamlessly operate your practice in multiple jurisdictions, compliant with regulations, tax efficient and with minimized liability. Specifically, Dentons can help you:

- Take advantage of consolidation in your industry; whether you want to grow by acquisition or merge your business with a larger network, we understand how to design agreements that protect your business' goodwill and help retain talented professionals
- Address highly sensitive, critical matters involving allegations of professional negligence or professional discipline
- Act as insolvency office holders in complex insolvencies and restructurings around the world.

Dentons' lawyers can give you confidence in your role. With Dentons, you get one of the largest, most highly regarded teams of dedicated professionals in the world to help you do business all around the world. We understand your issues. Let us use our experience to solve them for you
