

## Overview

In a marketplace where the circle of competing participants is well known, resolving disputes through swift and cost-effective arbitration allows you to maintain commercially valuable relationships.

Rely on a team with experience in representing clients in domestic and international arbitration forums.

From selecting the most appropriate forum and advising its arbitral rules through to drafting and enforcing resolution provisions, we will ensure the dispute is resolved quickly and effectively.

Whether the arbitration is heard before the International Chamber of Commerce, United Nations Commission on International Trade Law, International Centre for Settlement Disputes or an agreed domestic forum, we will negotiate to secure your desired outcome.

Where an international location is chosen for the arbitration, our offices around the world are ready to provide additional resources.

Partner with a team committed to resolving your disputes and retaining your commercial interests and relationships.
