

## Overview

In the increasingly complex world of securitization, you need an established partner that will offer you well-rounded, innovative advice. You need Dentons. Our team has been an industry leader in this area since the 1980s. It's what we do and we thrive on the challenge.

Turn to us for all your needs in the securitization area, whether you are an issuer, underwriter, investor, or transaction participant such as a servicer or trustee. We help clients with new issuances, and we also advise on various issues that may arise with outstanding transactions.

At Dentons, we think securitization is here to stay—it's the most flexible tool for connecting investment capital with consumer and business credit. And we are actively helping clients that are at the forefront of developing new best practices for securitization. We maintain a complete array of capabilities to serve clients in the securitization area, for all asset types and structures. We're here for you.

Areas of focus include:

- Asset-Backed Securities (ABS)
- Collateralized Loan Obligations
- Commercial Mortgage-Backed Securities (CMBS)
- Esoteric Securitization
- Insurance Linked Securities
- Residential Mortgage-Backed Securities (RMBS)
