

Overview

Lawyers in Dentons' Central Asia Intellectual Property and Information Technology practice select the right options to fit your business needs, whether you are assessing an IP portfolio, performing due diligence for an acquisition, securing a patent, trademark, trade secret or copyright, or using litigation to resolve business disputes over infringement.

Our IP/IT expertise in the region spans many industries, including HoReCa, pharmaceutical and life sciences, FMCG, mining, telecommunications, entertainment, financial services and luxury brands.

We are uniquely positioned with a full-service IP/IT practice that is integrated with other practices, providing you with comprehensive advice on IP protection (procedural issues of registration of the exclusive rights to items of intellectual property) and IP enforcement at pre-litigation (including administrative proceedings with State bodies) and litigation stages.

Turn to our team in Central Asia for assistance with:

- Copyright objects
- Related rights objects
- Means of individualization (trademarks, names of appellation of origin, firm names)
- Domain names
- Industrial property (inventions, patent designs, utility models)
- Undisclosed information or know-how
- Selective breeding achievements
- Integrated circuit topographies
- Regulatory and licensing
