

Overview

Globalization and technological change demand a high degree of flexibility and adaptability from companies. In this challenging environment, financial, business, tax and regulatory questions must all be taken into account when buying and selling companies. A company split up can provide more flexibility – while an acquisition can enable rapid growth.

Key service areas

Our experienced team provides comprehensive advice on all M&A-related matters, in particular on:

- Cross-border M&A
- Restructuring and transformations
- Joint ventures
- Private equity transactions
- Leveraged and management buyouts
- Distressed M&A
- Transactions in regulated industries
- Venture capital

Whenever required, we work closely with colleagues from other relevant practice groups, for example for:

- Acquisition finance
- Legal, tax and financial due diligence – a one-stop service
- Tax structuring of transactions
- Industry-specific regulations
- Merger control
- Trademark and design law
- Data protection
- Compliance
