Our approach

Clients highly appreciate our Privacy & Cybersecurity team that operates at both a multinational and local level, cooperating closely with Dentons' professionals worldwide. We have established effective synergies so that clients are offered solutions at European level (e.g. DPOs hotline) and given comprehensive support (from drafting documentation to analysis with respect to privacy compliance as well as clear instructions on how to interact with the Supervisory Authorities and the best approach to take in case of a crisis e.g. data breach or a legal proceeding). We provide our clients with a turnkey business-oriented result.
