

Overview

To achieve success, companies must integrate social responsibility practices into their business operations. But in certain markets, political instability and lack of transparency can turn your mission into a truly daunting exercise.

Drawing from a wide range of subject and regional experience, our team helps you determine how your business operations intersect with human rights, environmental conservation, corruption and myriad other issues. Together, we'll develop corporate social responsibility strategies so your business can operate smoothly in any part of the world.

When you engage our team, you're not just working closely with highly knowledgeable lawyers, you're also gaining insight from former diplomats and advisors with on-the-ground experience in regions throughout the world.

Collaborate with us to optimize your business's social responsibility in areas like:

- Market entry strategy
- Multi-stakeholder advisory counsel
- Voluntary codes of conduct
- Business and human rights
- Social impact audits
- Supply chain audits
