Overview

Our three offices in Germany have an extensive and diverse restructuring practice with comprehensive expertise in all areas of Finance, Corporate and Insolvency Law. We are well-positioned to provide you with advice on all aspects of reorganization, restructuring and insolvency.

Look to Dentons for these legal services:

- Advice on all questions of national and international insolvency law
- Development and implementation of restructuring concepts as well as their supervision, also in cross-border cases
- Restructuring of finance debts
- Protective shield proceedings
- Regulatory law matters
- Purchase, sale and administration of non-performing receivables
- Advice on all questions concerning supervisory requirements
- Restructuring of companies, including tax optimization
- State Aid
- Distressed M&A
- Double-sided trust agreements

We are also able to provide you with tax optimized solutions with regard to our recommended restructuring concepts.

We advise investors, creditors and institutional creditors as well as companies and directors and boards. In addition, we develop strategies to protect enterprises from distress. We have also acquired particular experience in advising bank creditors as well as debtors in the context of serving as a double-sided trustee.

Our practice works seamlessly across different areas of law and across jurisdictions, if required. Our advice is always based on your individual needs and goals. Restructuring will only succeed as a team effort, therefore our restructuring professionals work in close contact with you and your advisors at every stage of a project.
