

Corporate Governance in the Global Private Services (GPS) Sector in Europe

Corporate Governance

Corporate governance requires balancing intricate competing interests under the intense spotlight of regulatory, operational, fiduciary, political, communications and market factors. It requires the application of judgment, legal analysis, and practical decision-making in a real-time environment where decisions are likely to be second-guessed and sometimes reviewed by the courts.

We understand that the best way to avoid a corporate governance crisis is to plan for it; and that often the most successfully resolved crises are the ones that no one hears about. But when an issue is in the spotlight, we bring to bear an unparalleled array of resources and expertise, including securities regulation, disclosure, corporate law, communications policy, compliance practices, privacy, fiduciary duties, investor relations, activist shareholders and experience-based business judgment.

We are experienced in guiding boards of directors, special committees, management and corporate leadership on the full range of governance issues that confront them. In fact, our multidisciplinary, business-focused approach to addressing these issues has been relied on by many of the most sophisticated global companies.

We assemble teams of litigation and corporate partners experienced in all aspects of these sensitive matters, including:

- advising boards, committees, management and leadership in discharging their legal and fiduciary obligations while preserving all available legal protections
- responding to and negotiating with national and international securities regulators and other enforcement agencies
- working with your auditors and financial advisors to resolve potential accounting issues
- handling disclosure in a manner that both satisfies legal obligations and is sensitive to the concerns of investors, employees and the media
- conducting internal investigations to determine relevant facts quickly and accurately
- working with financing sources
- handling any civil litigation that may arise

Let Dentons be your partner in leading the way.
