

Japan Desk in Moscow

As part of our long standing commitment to offer support to Dentons' many Japanese clients globally, we have a Japan desk located in several of our offices: Warsaw, Moscow, London, Almaty, Dubai, Los Angeles, New York, Singapore, Shanghai, Toronto and Washington, DC.

Each of our Japan desks is led by a partner who is engaged day-to-day in supporting our Japanese clients in these regions. We support the business and legal departments of many leading Japanese manufacturers, trading houses, financial institutions and also many medium- and small-sized Japanese companies. We often work with Japanese law firms and other professionals.

All Dentons' Japan desk partners are frequent visitors to Japan; several of them have worked for extended periods in Tokyo. Dentons partners are familiar with Japanese business customs, procedures and protocol and the need for a consensus-based approach. Our extensive experience in supporting Japanese companies in their dealings with counterparties, transactions, projects, regulations and legal processes outside Japan, ensures we are able to meet your expectations on all levels.
