

Overview

Doing business in India can be immensely rewarding. It can also be challenging. We are here to guide you.

Our international team includes lawyers qualified in India, who can provide a comprehensive multi-lingual service. You can have confidence that your advice will be provided by professionals who understand first-hand the political, cultural, regulatory and economic issues associated with doing business in India.

We advise Indian clients on outward investment and access to international financing, as well as international clients regarding investment flows into India. We do not practice Indian law, nor do we have an office in India, as this is not permitted under local rules. Instead, we collaborate with a number of trusted Indian firms to provide world-class service tailored to your specific issues.

Leverage our dedicated India team of partners and associates from across the Asia Pacific, the Middle East, Europe, the US and Canada. Our teams in the Middle East, in particular, are geographically proximate to India, so we can assist you in real time on the ground.
