

Overview

Romania continues to show tremendous potential despite the economic climate in the Eurozone. On the plus side the growth has been ahead of the European average and the outlook remains reasonably positive, fuelled partly by a skilled workforce as well as European Union funding possibilities. There are some challenges for the banking system, as a result of the downturn the business environment continues to offer a range of opportunities that are best managed by working with a supportive law firm.

Dentons knows the issues and supplies innovative solutions. Capitalizing on one of the leading law practices in Romania, you receive in-depth experience from informed lawyers across all aspects of law.

Work together with our lawyers in Bucharest and get creative solutions for all your needs, including loan workouts as well as restructuring and distressed asset transactions. Our visionary approach delivers results. We advised on the sale of 75% of Rompetrol to KazMunaiGas, the first ever listing of a local company on the London Stock Exchange and on the sale of a major wind farm project to Czech energy giant CEZ.

Our Bucharest office is also well connected with the local business community, supporting a range of business initiatives. And, if you seek experience in cross-border transactions, let our highly driven lawyers guide you on the pitfalls and optimize your commercial possibilities.

Look to our lawyers for effective solutions across Romania including:

- Banking & Finance
- Corporate
- Competition
- Dispute Resolution: Arbitration & Litigation
- Employment
- Energy & Infrastructure
- Intellectual Property
- Privacy
- Real Estate
- Restructuring, Reorganisation and Insolvency
