

Overview

Established on December 6, 2016, Dentons Guiyang office is located in the bustling commercial heartland of the old town of Guiyang.

Since its establishment, Guiyang Office has attracted a host of outstanding lawyers, senior and young, from both within and outside Guizhou Province, and absorbed excellent lateral groups. Although the office has already put together a collaborative and synergistic team, it is expected to continue its growth momentum going forward. Our lawyers all graduated from leading political science and law universities in China (including one postdoctoral fellow in law and 3 PhD students. Postgraduates account for 1/3 of the headcount). And some senior lawyers have worked for the judicial authority.

At the end of 2017, at the request of the government, and in an effort to combine local legislative theory with legal practice, Guiyang office set up a local legislative service center, a highly praised body recognized by the leaders of the Judicial Bureau of Nanming District of Guiyang City for its standardized service and strong professionalism.

While we attach great importance to the facilitating government initiatives, we are committed to providing specialized and efficient client service. Combining legal business mindset with our ability to solve legal problems, Guiyang office is a firm believer in the idea that key to its success is improving specialization and bettering reputation. By integrating and mobilizing resources, we are able to provide all kinds of enterprises and individual clients with comprehensive, personalized and high-end service, forge win-win cooperation, and have gained recognition from our clients and peers.

The main practice areas of the Guiyang office include:

- Securities and Capital Markets
- Company Acquisitions, Mergers and Reorganization
- Private Equity and Investment Fund
- Reform of State-owned Enterprises and Property Rights Transactions
- Banking and Finance
- Antitrust and National Security Review
- Tax
- Intellectual Property
- Real Estate and Construction Projects
- Mining, Energy and Natural Resources
- Dispute Resolution
- Criminal Defense
- Labor Law

- Pro Bono
