

Overview

Dentons celebrated its 50th year of operations in the United Arab Emirates in 2019. As the first international law firm to establish a presence in the Emirates, we have played a leading role in helping the UAE become the remarkable nation it is today.

Our office in Dubai opened in 1969, decades before many of our competitors, and we have since helped make Dubai a key business hub for the Middle East and an important stepping-stone for international businesses into Africa and Asia.

Clients benefit from our unrivalled understanding of the legal and business environment gained from both our unique experience in helping to shape the legal and regulatory landscape of Dubai, as well as our long-standing relationships with local business communities and governments.

Our team of over 50 legal professionals in Dubai and Abu Dhabi are uniquely able to advise on both international and local law across all the major areas of banking & finance, corporate & commercial, construction, dispute resolution, energy and projects and TMT. Our Arabic capability at all levels also enhances our ability to support our clients' legal and business needs in the UAE.

With 9 offices in the Middle East across the UAE, Saudi Arabia, Oman, Qatar, Jordan, Lebanon and Egypt, Dentons also has the broadest network of any international firm in the region, allowing us to deploy the very best legal talent to our clients wherever they need us to help them complete a transaction or resolve a dispute.
