

Overview

Located in northern Alabama, Huntsville is the fastest-growing metropolitan area in the state. Although Huntsville is best known for its role in the space program at NASA's Marshall Space Flight Center at Redstone Arsenal, the Arsenal is also home to more than 70 organizations, including the US Army, the Department of Defense and a rapidly-growing FBI and ATF component. Across the street from Redstone is Cummings Research Park, the second-largest research park in the country and the fourth-largest in the world. It is home to more than 300 companies, including a mixture of Fortune 500 companies, local and international high-tech enterprises and US space and defense agencies. The University of Alabama in Huntsville and Alabama A&M University keep the talent pool rich, both boasting premier science and engineering programs.

All of these industries require the knowledge and experience of seasoned lawyers. That's where we have you covered.
