

# The International Comparative Legal Guide to Construction & Engineering Law 2015 Edition

大成 DENTONS

July 6, 2015

Dentons Canada partners Claude Morency (Montreal) and Karen Martin (Vancouver) recently co-authored a chapter on construction and engineering law for the International Comparative Legal Guides, which provides current and practical comparative legal information on various practice areas. The chapter, entitled “Canada – Construction & Engineering Law 2015”, details all aspects of construction contracts in Canada (the formation, supervision and common issues surrounding construction contracts), as well as dispute resolution.

To read the chapter, please click [here](#).

This article appeared in the 2015 edition of *The International Comparative Legal Guide to: Construction & Engineering Law*, published by *Global Legal Group Ltd*, London.
