

Navigating the Post-Akamai Landscape

DENTONS

October 11, 2012

SNR Denton partners **Robert Kramer** (San Francisco/Silicon Valley), and **Qian Huang, Ph.D.**, (San Francisco/Silicon Valley) and associate **Imran A. Khaliq** (San Francisco) authored "Navigating The Post-Akamai Landscape: Assessing Practical Consequences For Computer, Software & Business Method Patents In the New Era," which was posted to the Law360 website on October 9, 2012. The article covers the important implications as well as subtle nuances of this decision for patent professionals and how industries such as computer software, Internet-based transactions/operations and cloud computing businesses may be impacted.
