

# Dentons Return to Work Employer Toolkit

May 4, 2020

The COVID-19 crisis has created challenging and uncertain times for all of us. As we start to see restrictions being lifted across the country, employers are faced with a new set of challenges as they try to navigate their way through the unknown. Over the last few weeks we have been inundated with questions from clients as they get to grips with the 'new normal'. In response to this, we have produced the Dentons Return to Work Employer Toolkit.

This toolkit has been developed to help our Canadian clients with some of the employment issues they may face as provinces and businesses begin to re-open during the COVID-19 pandemic. In this guide we discuss topics such as:

- Return from temporary layoffs;
- Flexible work arrangements;
- Managing workplace health and safety; and
- Other considerations, including work refusals.

We hope that this toolkit will provide our clients with some of the background information they need to create their own return to work plans.

If you would like more information about the Toolkit, please contact Adrian Elmslie, Eleni Kassaris, April Kosten, Christian Létourneau, Andy Pushalik, Catherine Coulter or another member of the Employment and Labour team.
