

# Dentons Flashpoint

## Daily Global Situation Report

January 11, 2021

# Global Situation Update: January 11, 2021

---

## KEY TAKEAWAYS

The UK super spreader COVID-19 strain now in 40 countries; global infections top 90 million.

Articles of impeachment of US President Trump will be introduced in Congress today.

China set to end laissez-faire approach to the fintech industry with data-sharing mandate.

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# Global

---

**The UK strain of COVID-19 has now spread to 40 countries, with scientists assessing that it is a super spreader capable of turbocharging the pandemic and muscling less transmissible strains of the virus into oblivion.**

- Most patients who received hospital treatment for Covid-19 developed **long-term health problems**, according to a large-scale study from China; fatigue and sleep difficulties were the most common symptoms but lung and kidney problems were also recorded.
- China has reversed a decision to bar the entry of a 10-member **WHO team investigating** the origins of the coronavirus pandemic; the team is scheduled to arrive in China on January 14.
- More than a dozen startups are building their own globe-spanning networks of **nanosatellites**, enabling a new kind of everywhere, all-the-time connectivity for people, animals and assets on Earth.

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# Global

**Confirmed coronavirus cases globally surpassed 90 million, with deaths at 1.93 million. Infections are growing by one million every day-and-a-half.**

**The US continues to be the global leader for new infections, averaging around 253,000 daily new cases last week. The UK continues as the second global hotspot, surpassing 3 million confirmed infections – more than 60,000 on Saturday -- and 80,000 total deaths. The surge is driven by the more infectious strain circulating the country.**

# COVID-19 Vaccine

---

**Indian Prime Minister Narendra Modi said the nation would continue to export medicines, including vaccines, refuting reports of export bans.**

- The head of the WHO said there is a “*clear problem*” that **low- and middle-income countries** are not yet receiving supplies of COVID-19 vaccines and urged countries to stop striking bilateral deals with manufacturers.
- **Cuba** announced it had signed an accord with **Iran** to transfer the technology for its most advanced coronavirus vaccine candidate and carry out last-stage clinical trials of the shot in the Islamic Republic.
- **Britain** approved Moderna’s COVID-19 vaccine for use, agreeing to purchase an additional 10 million doses as it eyed a spring rollout of the vaccine. The number of UK vaccination “mega-centres” at locations such as sports stadiums and conference halls will be increased sevenfold in the coming weeks under plans being drawn up by the government.
- **Indonesia** will kick off its national vaccination campaign on Wednesday. **India’s** domestic inoculation drive will start on Saturday.
- In the US, 6.7 million Americans have been vaccinated, still far short of target rate.

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# Markets

---

**Wall Street firms in Hong Kong including Goldman Sachs and JPMorgan have set out plans to reduce exposure to Chinese telecom companies named in a U.S. ban on investments.**

- **European shares** fell in early trading, with rising coronavirus cases across the continent and China dragging down commodity stocks.
- **Asian stock** markets also edged down. MSCI's broadest index of Asia-Pacific shares outside Japan dipped, having surged 5 percent last week to record highs. Japan's Nikkei was on holiday after closing at a 30-year high on Friday.
- The **dollar** gained broadly on Monday as widening US Treasury yields and expectations of more fiscal stimulus lifted the greenback against its rivals, with the **euro** falling to a two-week low.
- US cities are losing their allure for renters, placing early signs of strain on the market in **bonds backed by mortgages** on apartment blocks.

# Business

---

**Apple Inc and Amazon.com Inc have suspended Parler from their respective App Store and web hosting service, saying the social networking service popular with many right-leaning social media users has not taken adequate measures to prevent the spread of posts inciting violence.**

- Deal making among **oil and gas producers** was at its highest for the year in the fourth quarter of 2020 as the pandemic-driven fallout in commodity prices spurred a wave of consolidation.
- Telecoms operator **Tele2** will partner with Finland's **Nokia** for the deployment of its 5G core network in Sweden and the Baltics.
- **Deutsche Bank AG** will pay nearly \$125 million to avoid U.S. prosecution on charges it engaged in foreign bribery schemes and manipulated precious metals markets.
- China plans to push tech giants including **Ant Group, Tencent and JD.com** to share consumer loan data to prevent excess borrowing and fraud, ending the Chinese government's laissez-faire approach to the industry.
- China's search engine giant **Baidu Inc** will set up a company to partner with car maker **Zhejiang Geely Holding Group** to make smart electric vehicles.
- French drugmaker **Sanofi** has agreed to buy British immunotherapy firm **Kymab** for up to \$1.45 billion.

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# Africa

---

- Two former **Algerian** prime ministers went on trial again Saturday on a corruption, after the supreme court annulled their earlier convictions.
- **China's** Foreign Minister Wang Yi concluded a visit to Africa that signal that Beijing was still willing to fund infrastructure projects under the Belt and Road Initiative; the foreign minister made stops in **Botswana, Democratic Republic of Congo, Nigeria, Seychelles and Tanzania.**
- Negotiations between **Ethiopia, Sudan and Egypt**, in a long-running dispute over the Grand Ethiopian Renaissance Dam (GERD) on the Blue Nile, have reached a new impasse. Sudan objected to their terms of reference for the negotiations and refused to include the experts in the meeting, effectively halting the talks.
- **Nigeria**, Africa's most populous country, surpassed 100,000 virus cases as the second wave of the pandemic gathers steam across Africa.

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# Asia

- A Sriwijaya Air jet carrying 62 people crashed into the Java Sea minutes after take-off on Saturday, marking **Indonesia's** third major airline crash in just over six years. The black boxes have been located with recovery operations on-going.
- **New Zealand's** central bank says its data system was breached through hacking of a third-party file-sharing service; the follows a cyber-attack on New Zealand's stock exchange last August.
- Foreign ministers from the **US, Canada, Britain and Australia** condemned last week's arrest of over 50 democracy activists in **Hong Kong** in a joint statement, saying that the National Security Law is being used to eliminate dissent and opposing political views. **China** condemned the US on Monday for ending restrictions on interactions with **Taiwan** officials, saying nobody could prevent the country's "*re-unification*" with China. China has called for the swift return of a soldier it says is being held by **Indian** authorities after disappearing along the border.
- **China's** premier warned officials against any attempt to cover up or under-report the spread of the coronavirus as a northern province went into "wartime mode" for one of the toughest lockdowns since Wuhan early last year. Mainland China saw its biggest daily increase yesterday of cases in over five months.

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# Europe

---

- The pro-independence Scottish National Party (SNP) demanded on Sunday that **UK** Prime Minister Johnson pay billions of pounds in compensation to Scotland for the mounting costs and disruption of Brexit.
- In **Italy**, the government of Prime Minister Conte is struggling to avoid collapse after a small coalition member threatened to withdraw vital parliamentary support, disagreements focus on how to revive the economy post-Covid-19.
- Nationalist politician Sadyr Japarov appears poised to win **Kyrgyzstan's** presidential election on Sunday, a snap vote triggered by the collapse of the previous government closely allied with Russia.
- **France** has imposed a stricter evening curfew in Marseille after authorities discovered the new variant of the COVID-19 virus circulating. **Northern Ireland** hospitals are under pressure from the surge of COVID-19 hospitalizations, calling for off-duty nurses in neighboring regions for assistance. The **UK's** chief medical officer warned that England is facing a health emergency unless people obey the new lockdown, with the government weighing ways of toughening enforcement of the third national lockdown. The **Spanish** capital is trying to get back on its feet after a 50-year record snowfall that paralyzed large parts of central Spain over the weekend, hampering the rollout of vaccines.

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# Middle East

---

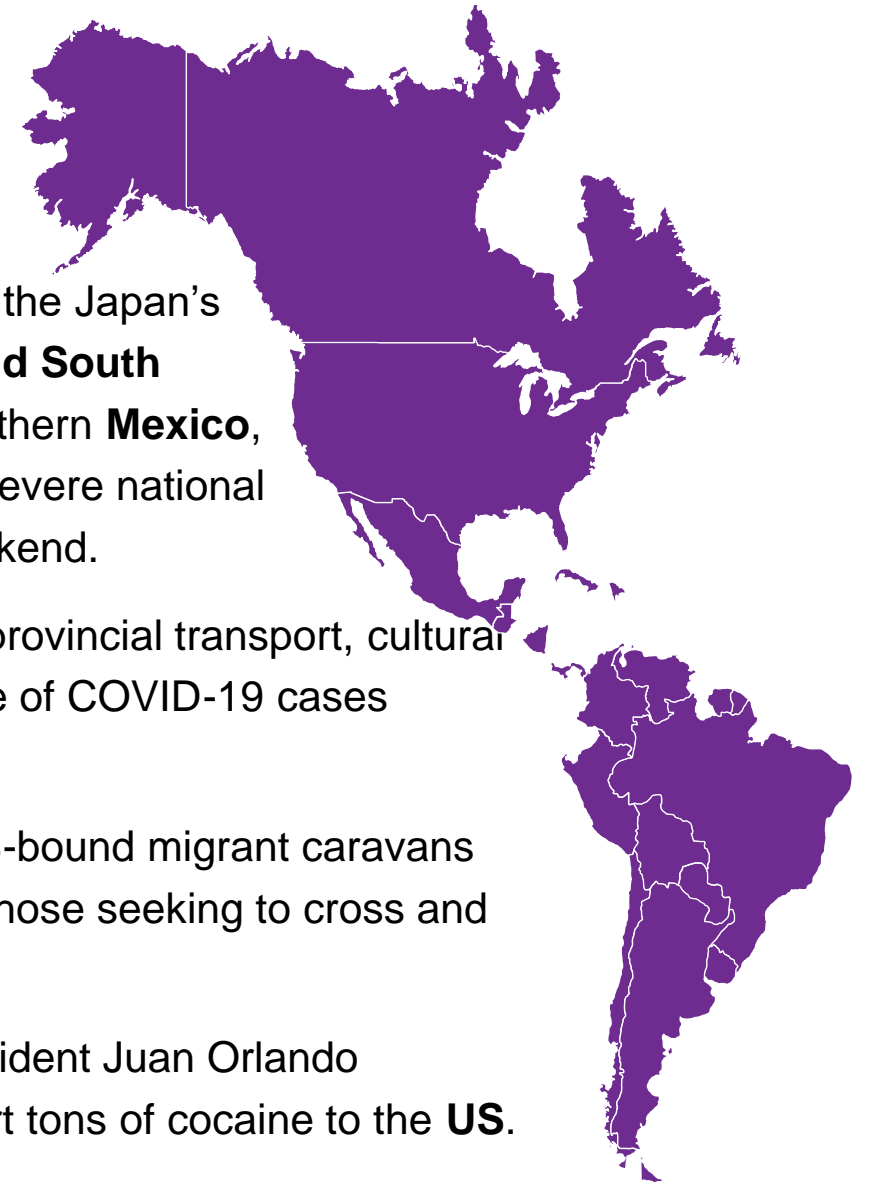

- **Iran** will expel United Nations nuclear watchdog inspectors unless US sanctions are lifted by a February 21 deadline.
- **Pakistan** surpassed 500,000 virus infections.
- Thousands of **Israelis** renewed weekly demonstrations against Prime Minister Netanyahu, calling for the long-serving leader to resign over corruption charges against him and his alleged mishandling of the coronavirus crisis. Netanyahu's trial was set to resume this week but was postponed indefinitely amid a third lockdown to stop the spread of the coronavirus.
- The **US** plans to designate **Yemen's** Houthi movement as a foreign terrorist organization, a move that diplomats and aid groups worry could threaten peace talks and complicate efforts to combat the world's largest humanitarian crisis.
- **Saudi Arabia's** Crown Prince Mohammed bin Salman is spearheading a campaign to convince multinationals from Google to Siemens to relocate their regional headquarters from Dubai to Riyadh, in an initiative called "Program HQ."

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# Americas

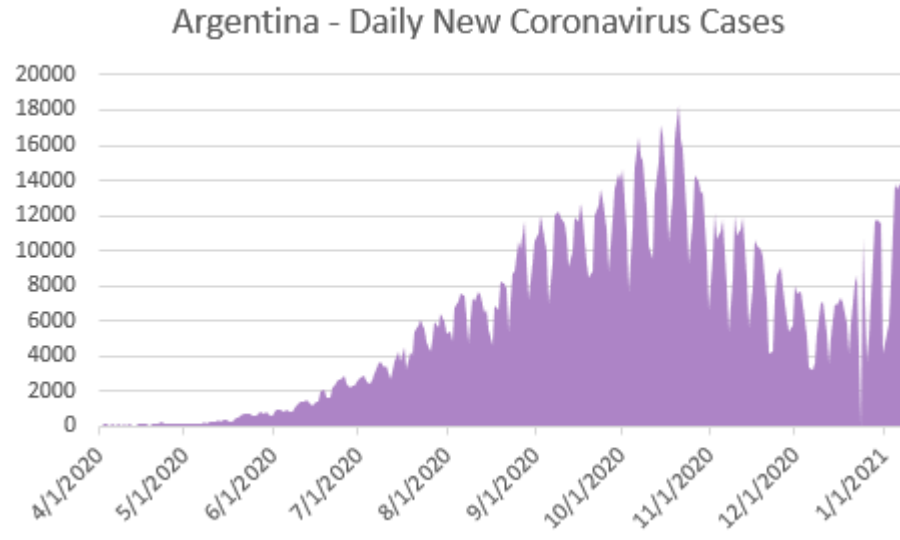

- A new coronavirus variant was detected in four travelers from **Brazil**, per the Japan's Health Ministry; the variant is different from those first found in **Britain and South Africa**. The UK variant of the coronavirus has also been confirmed in northern **Mexico**, health officials announced, adding a new layer of concern to an already severe national outbreak. Confirmed infections in Brazil surpassed 8 million over the weekend.
- **Cuba** imposed new containment measures including suspension of interprovincial transport, cultural activities and the use of public spaces, after seeing a holiday period spike of COVID-19 cases attributed to year-end partying.
- **Guatemalan and Honduran** soldiers will be deployed to prevent new US-bound migrant caravans from advancing, military officials said, amid growing desperation among those seeking to cross and signs that some groups will depart later this month.
- New York federal prosecutors made new allegations that **Honduran** President Juan Orlando Hernández, received millions of dollars from drug traffickers to help export tons of cocaine to the **US**.

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# Americas

Argentina is seeing an upward trend in new coronavirus cases as the second wave in Latin America takes root. Last week, Argentina issued a decree empowering provinces to restrict nighttime activities in a bid to slow the spread, with authorities attributing the spike to Southern Hemisphere summer vacationers. The beaches are packed with bathers and outdoor parties, many not wearing masks or observing social distancing guidelines. Argentina has more than 1.7 million confirmed cases and 44,000 deaths; vaccination of health workers began late December, using 300,000 doses of the Russian Sputnik V vaccine. Buenos Aires has approved AstraZeneca and Oxford University for emergency use.

Source: Johns Hopkins University

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# Americas: US

- Democratic members of the House of Representatives will introduce **articles of impeachment** on Monday against President Trump, if approved making Trump the only president to be impeached twice. House Speaker Nancy Pelosi has also asked members to draft legislation aimed at invoking the Constitution's **25th Amendment**. A small but growing number of Republican lawmakers have joined calls for Trump to step down but have not signaled support for impeachment.
- Marriott International Inc, the world's largest hotel company, and the Blue Cross Blue Shield Association announced they will suspend **donations to US lawmakers** who voted last week against certifying President-elect Joe Biden's victory, for undermining democracy. JPMorgan Chase, Citi and Boston Scientific paused all donations. Trump National Golf Club in Bedminster, which is owned by President Trump, has been stripped of the **2022 PGA Championship**, the first sports organization to abandon President Trump. **Stripe** cut off payment-processing for the Trump campaign's website.
- Nearly 22.4 million coronavirus **infections** and 373,000 fatalities have been reported in the US since February. National **hospitalizations** edged down last week, yesterday reported at 129,229. Some states are beginning to expand **vaccine availability** new additional categories, including people over the age of 75 and essential workers beyond healthcare providers amid calls for greater flexibility to speed inoculations. Vaccine distribution continues to fall short of targets.
- The State Department lifted restrictions on contacts between US officials and their **Taiwanese** counterparts, a move likely to anger China and increase tensions between Beijing and Washington.

# The Week Post-Brexit: Disruption, Red Tape, and Relief

By Briana Boland

**As the EU and UK enter their second week of post-Brexit business, the tangible impacts of their new trading relationship become clearer by the day.**

The worst-case scenario of a no deal Brexit did not materialize, and after years of focus on the divisive issue, many politicians and citizens will be happy to view Brexit in the rear-view mirror. However, the UK's exit from the EU customs union and single market has unsurprisingly caused significant disruption for cross-border business. Though the confusion of the coronavirus pandemic and seasonal disruption of holidays already mean that business is not operating as usual, the first week of post-Brexit trade revealed the impact of increased red tape and complicated new regulations in delays at borders, distress from businesses still reviewing the deal's fine print, and concern about negative economic impact.

Finalized in the final days of 2020 and officially named the EU-UK Trade and Cooperation Agreement, the Brexit trade deal is nearly 1,500 pages long and filled with the fruits of years of negotiation. While clearly still a source of issues for European companies engaged

in international business, it has succeeded in resolving many major concerns for both parties. The EU will avoid a hard border in Ireland (customs checks will instead take place in the Irish Sea) and will preserve the “four freedoms” of its single market: freedom of movement of goods, services, people and capital. The UK is allowed “zero tariff, zero quota” trade of goods, and the European Court of Justice will not be involved in dispute settlement. The agreement offers solutions to the sharing of fisheries and preservation of a “level playing field” to ensure fair competition, both major sticking points in negotiations. It promises “managed divergence” for competition issues, in which both players have the right to retaliate (after judicial review process) for practices deemed un-competitive. For fisheries, the EU will give up 25 percent of its current quotas in UK waters over the next 5 and a half years, after which there will need to be annual re-negotiations.

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# The Week Post-Brexit: Disruption, Red Tape, and Relief

However, the practical application of the deal does not live up to all of its headline promises, particularly for businesses in the UK. Despite the promise of “zero tariff, zero quota” trade, leaving the EU still makes trade much more complicated, as the UK reckons with a new array of customs and regulatory checks. In particular, rules of origin requirements are causing alarm among businesses, as re-exporting goods risks tariffs. Take the example of Marks & Spencer’s Percy Pig candy, which is made in Germany before being shipped to the UK and then re-exported to other European countries, and which Marks & Spencer has warned may now be pricier outside the UK due to the new taxes. The problem spans far beyond Percy Pig; last week over 100 retail executives appealed to UK government officials over significant issues stemming from rules of origin and other new regulations. The government says they are working to help companies adapt to the new deal, but many industry leaders say such issues will likely require concessions from the EU to truly be solved. The Federation of Small Businesses has said that many small UK firms have simply suspended EU imports and exports temporarily while they sort through the implications of the Brexit deal.

Beyond new regulations that hit manufacturing supply chains, increased post-Brexit red tape has slowed down processes at the

border and otherwise complicated once-simple certification processes. The UK government’s own estimates predict that an extra 215 million customs declaration forms will be needed in a year. By the end of last week, a variety of reports emerged on being disrupted at the UK border, varying in scale from the Road Haulage Association’s assertion that one in five trucks were being turned away to UK Transport Secretary Shapps’s estimate that only 1 percent of trucks had been delayed by incorrect paperwork. Due to the new coronavirus variant spreading in the UK, the need for proof of a negative coronavirus test result to pass from the UK to France has further added to border delays.

Food and livestock trade has proven one of the trickiest areas, as tough new requirements slow down supply chains that rely on fresh supply. For example, many Scottish fisherman who deliver fresh-caught scallops and other seafood to French restaurants have reported the cancellation of orders and even a complete halt of exports as new health certificates and other paperwork adds days to processing. Beyond the physical trade of goods, Brexit’s impact on the UK’s crucial services sector (making up almost 80 percent of the UK’s economy) will be tested over the longer term, as licenses and

*Note: This report is based on sources and information deemed to be true and reliable, but Dentons makes no representations to same.*

# The Week Post-Brexit: Disruption, Red Tape, and Relief

---

and professional qualifications no longer be automatically recognized across Europe provide a new hurdle to business.

Beyond relations with the EU, the UK sees some new post-Brexit trade opportunities. London was able to roll over most of the third country trade deals it had as part of in the EU - with the exception of Ghana, which has caused some issues with new tariffs on banana imports from the country. With its new independence from the EU, many analysts expect expanded bilateral free trade agreements to be pursued with other partners, especially the US. However, such trade deals will not be a short-term prospect, particularly as the incoming Biden Administration has indicated such negotiations are not a current priority.

For now, the UK has seen many of the negative impacts of Brexit, from business disruption to share dealing worth billions of pounds shifting away from London. Public opinion of the EU-UK Trade and Cooperation Agreement is still in a formative phase, particularly as UK and EU citizens alike have been distracted from Brexit by the new COVID-19 strain, holiday lockdown measures, and even watching scenes of chaos in the US last week. As views on the trade deal become more developed, they may be particularly

consequential for regions of the UK questioning independence. Through avoiding a hard land border between Northern Ireland and the Republic of Ireland, the new status quo brings Northern Ireland closer to the EU than the rest of the UK, in terms of both regulations and flows of people. For Scotland, the unpopularity of Brexit plays into support for independence. If the Scottish National Party (SNP) win an absolute Scottish Parliamentary majority in May regional elections, they may hold another independence referendum soon after. Though the deal was officially done at the turn of the new year, Brexit is going nowhere as a key topic in European politics – not to mention that the deal itself must be revisited as time goes by.
