

Integrated Project Delivery (IPD) - Moving beyond traditional project delivery

May 9, 2019

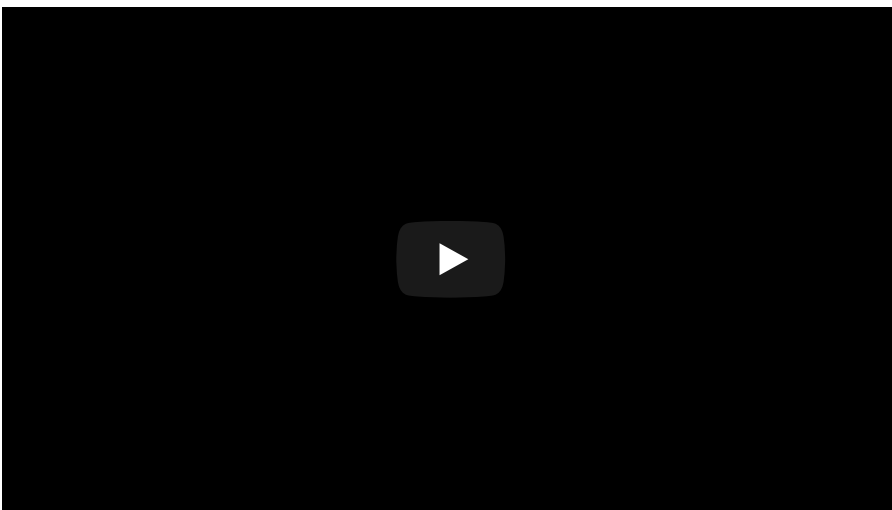

Dentons construction roundtable discussion on the **Integrated Project Delivery (IPD)** model of contracting for new builds and renovations, provides an exceptional group of passionate and knowledgeable IPD practitioners, with a vast range of experience and roles within their respective fields.

Our diverse group of panelists discuss their lessons learned from their IPD projects, including, when this model works, when a project team should be assembled, risk considerations inherent to this model, teaming, dispute resolution strategies, and how IPD works with sub-contractors outside of the model.

The roundtable panel is comprised of an owner, an architect and a general contractor.

Speakers

- **Dennis Picco**, Partner, Dentons
- Jen Hancock, Director Innovative Construction, Chandos Construction Ltd.
- Jeannine Tse, Associate General Counsel, Major Projects, Stantec
- Ken Jaeger, Supervisor of Support Services, Red Deer Catholic Regional Schools
