

Overview

Dentons Durham Jones Pinegar offers a Corporate Services program to help you avoid charter expiration, suspension or revocation; minimize business risks; and protect your personal assets.

In addition to preventing the inconvenience of a process server showing up at your place of business, we can help you stay on top of your annual requirements, identify potential problems with your business records and answer any questions you may have.

With our Corporate Services team acting as your registered agent and completing your annual requirements, you can finally achieve peace of mind.

We will...

- Act as your registered agent
- File your annual report
- Prepare all necessary annual meeting documentation
- Attend your annual meeting
- Perform an annual checkup of your business practices

These services are limited to non-public companies.
