Overview

Liz is a senior patent attorney in Dentons' London office. She is a member of the Technology, Media and Telecoms practice.

Liz's focus is on drafting, filing and prosecuting patent applications to grant, as well as advising on patent validity and infringement risk. She has over 30 years' experience as a patent attorney and has worked for clients of all sizes in a wide range of technologies over a large geographical spread. The bulk of her work is currently before the European Patent Office with a significant proportion at the US Patent and Trade Mark Office and the UK Intellectual Property Office.

Prior to joining Dentons Liz ran the UK branch of an Israel law firm and worked with cutting-edge clients in fields such as augmented reality, big data, fuel cells and medical devices.

Experience

- **Confidential client:** Advising on a patent filing strategy as part of a litigation campaign.
- **Confidential client:** Advising on infringement risk associated with a pending application in advance of an investment in manufacture.
- **Confidential client:** Drafting patent applications in big data technology for use in call handling and customer service back office functions.
