Overview

Luca Lucarini is an associate in our Litigation & Dispute Resolution and Transformative Technologies and Data Strategy groups. Luca acts for clients on a variety of regulatory, commercial and civil litigation matters. Luca has particular experience in providing risk analysis, incident response and compliance advice to clients in the areas of privacy, cybersecurity, and health law. In addition to his litigation practice, Luca regularly assists clients with the privacy law aspects of corporate transactions and employment matters.

Before joining Dentons, Luca articulated with the Information and Privacy Commissioner of Ontario, where worked on investigations under Ontario's public-sector and health information privacy legislation, and acted for the Commissioner in judicial review proceedings. Prior to attending law school, Luca worked as post-production supervisor for film and television.

Experience

- **Property management client:** Resolved data breach by drafting notifications to affected individuals and reporting to the Office of the Privacy Commissioner of Canada.
- **Automotive client:** Advising on large-scale data sharing project.
- **Medical clinic client:** Advising in risk management of departing employees and privacy obligations respecting patient records.
- **Medical clinic client:** Advising in privacy-related aspects of corporate transaction involving patient data.
- **Multinational life sciences client:** Performed internal data mapping exercise to achieve compliance with the GDPR.
- **Video hosting, live streaming, and e-commerce platform client:** Audited privacy compliance program; produced gap analysis; developed internal policies and breach response protocol.
