Dentons' Cross-Border Connections is a program aimed at connecting our Los Angeles-based friends and clients to each other and to talented professionals doing business around the globe. This event series covers a range of industry-specific topics relevant to anyone engaged in cross-border deals.

On May 11th, John Zhang, along with co-sponsors Aon Risk Solutions and the China Enterprise Council, hosted the program, "The Chinese Investor on the Global Stage." Beijing partner Vivien Tuo, along with other industry professionals, led two sessions to discuss issues, trends and strategies for enhancing M&A value in China-America transactions. Upon conclusion of the sessions, a networking lunch commenced, giving attendees the chance to meet with the speakers and other colleagues.
