The California Consumer Privacy Act (CCPA) is a sweeping new privacy law that will impact how businesses collect, use, store, and share the personal information of California residents. This webinar will provide an overview of the new rights and attendant business obligations created by the CCPA, review the impact of new amendments and proposed regulations, and provide key takeaways for covered businesses so they will be ready before the CCPA becomes effective January 1, 2020.

CLE credit is pending approval in Arizona, California, Georgia, Illinois, Missouri, New Jersey, New York, Texas and Virginia.
