We're teaming up with our friends at People Intouch, a world leading provider of reporting and case management platform SpeakUp, to offer you a powerful, engaging and insightful 45 minute conversation designed at providing you with practical implementation tips when it comes to establishing a whistleblowing system.

Dentons and People Intouch formed an alliance to pair the most comprehensive technical solution together with the most complete legal offering to meet clients' needs, named Dentons Whistleblowing Line and Suite of Solutions. Together we are driven to support companies in their drive to build an ethical corporate culture and to provide employees and third parties an effective and secure reporting channel.

What to expect

An insightful and engaging conversation featuring a diverse group of prominent industry voices -- all geared around helping you avoid the common pitfalls, giving you a better grasp of best practices such as;

- Failing to comply with the data protection and labor laws of different jurisdictions
- When you poorly communicate your whistleblowing channel
- Refusal to admit anonymous reporting or lack of facilitation
- Handling reports properly
- And many more
