

Dentons publishes the first textbook on debt trading in Spain

July 21, 2016

Spain —The Dentons Real Estate team in Madrid that deals with special real estate situations published its first academic essay about the legal and tax drivers for the acquisition of distressed debt portfolios in Spain.

"Manual de Compra de Deuda en España" (The Manual to Debt Trading in Spain) was written by a multi-disciplinary taskforce of lawyers in Dentons' Madrid office. The work represents a pioneering approach to the issue of debt portfolio trading on the Spanish market. It offers a comprehensive analysis of the legal and tax framework and an accessible compilation of legal sources, case law and legal scholarship on the matter.

The book was published by Aranzadi (now a branch of Thomson Reuters), one of the most prestigious legal publishing houses in Spain.

This new publication authored by Dentons' Real Estate team will be officially presented to a select audience of lawyers, notaries, judges and law professors at an event at the Spanish Royal Academy of Legal Science (Real Academia de Jurisprudencia y Legislación).
