

Dentons wins TMT Legal Adviser of the Year at TMT Finance & Investment MENA Awards

April 27, 2015

Dentons' Middle East TMT team was again recognized for its regional strength in the TMT sector by being named 'TMT Legal Adviser of the Year' at the TMT Finance & Investment MENA 2015 Awards, held in Dubai last week.

Organised by international publishing group TMT Finance, the annual awards dinner brings together key leadership from the region's leading telecom, tech, government, finance and advisory institutions to assess investment strategies.

This is the second time that Dentons has won this prestigious award in recognition of its involvement in major and innovative telecoms, media and IT projects across the MENA region. This included drafting new telecommunication and postal laws in Qatar, major ground-breaking arbitrations, negotiating multi-million dollar IT and telecom supply agreements and advising on new licence bids and other licensing matters, including in Algeria. On the media front, Dentons advised OSN on its successful bid for the media rights for the ICC cricket matches in the MENA region (2015-2023).

Head of Dentons' UKMEA Telecoms Group, Jan Willem van den Bos, said: "This award is yet another big recognition of the team's continuing hard work with all our great clients across the region."
