The Quest for 1991

Primary Details

Date: Saturday, February 22, 2020 **Format:** Caucus with Early Voting

Total Delegates: 36

Nevada 2020 caucuses overview (36 delegates)

1st alignment: Caucus-goers form into groups with others supporters of a candidate, or an "undecided" group*

1st count: A headcount is taken of each group. Candidates are considered "viable" if they receive 15%**; supporters of viable candidates must remain with that group

Final count: Each candidate who reaches the viability threshold receives at least one delegate, with remaining delegates allocated by the precinct chairs using a formula

2nd alignment: Supporters of non-viable candidates can join a viable group, try to persuade others non-viables to join their candidate, join the undecided group, or sit out

Delegate Allocation: The precinct permanent chairs use a secure tabulation method to determine the final count; these results are reported to the Nevada State Democratic Party

This year, the Nevada Democratic party **will not only release the final delegate allotments** but also release total first and second alignment figures

*Early Voting: Prior to Caucus Day, there will be four early voting days; voters will make multiple preference choices, which will be used to both determine viability and award delegates on Caucus Day *Viability percentages vary based on the number of delegates each precinct is allocated
